DOMESTIC SECTION 214 APPLICATION FILED FOR CONSENT TO ACQUISITION OF MPOWER ASSETS IN MICHIGAN BY LMDI

STREAMLINED PLEADING CYCLE ESTABLISHED

WC Docket No. 03-32

On January 24, 2003, Mpower Communications Corp. ("Mpower") and LMDI Telecommunications, Inc. ("LMDI") (together "Applicants") filed an application, pursuant to section 63.04 of the Commission's rules,¹ for consent to transfer certain assets of Mpower, which are located in Michigan, to LMDI. The applicants state that the proposed transaction is a transfer of assets not resulting in a reduction or impairment of service?

Applicants assert that this transaction is entitled to presumptive streamlined treatment pursuant to section 63.03(b)(2)(i) of the Commission's rules because (1) the proposed transaction will result in LMDI having a market share in the interstate, interexchange market of less than 10 percent; (2) LMDI will provide competitive telephone exchange services or exchange access services (if at all) exclusively in geographic areas served by a dominant local exchange carrier (LEC) that is not a **party** to the transaction; and (3) neither Mpower nor LMDI is dominant with respect to any service.

Mpower is a competitive local exchange carrier currently providing local, long distance, switched access, other access, DSL, and Internet access services in **27** markets in several states. Mpower states that it is continuing its long-term plan for financial viability by bringing geographic concentration to its business and transitioning its customers and assets in Florida, Georgia, Ohio, Michigan, and Texas to other service providers.² Mpower is wholly owned by Mpower Holding Corporation, a publicly traded Delaware corporation with a principal place of business at 175 Sully's Trail, Suite 300, Pittsford, NY 14534. Mpower Holding Corporation

¹ 41 C.F.R. § 63.04; see 41 U.S.C. § 214.

² Applicants state that they will **also** file applications to transfer control of related international services. **Any** action on this domestic **214** application is **without** prejudice to Commission action on other related pending applications.

³ This application pertains to Michigan only.

does not provide telecommunications services in any jurisdiction and holds no regulatory licenses from any state or federal regulatory agency.

LDMI is also a competitive LEC currently providing local, long distance, switched access, other access, DSL and internet access services in multiple markets in the states of Michigan and Ohio. It also provides long-distance service to customers nationwide. Through this acquisition, LDMI will expand its service footprint in Michigan to include the Detroit market.

Applicants **seek** consent for Mpower to transfer all of its assets and associated customers in Detroit to LDMI. Applicants state that the proposed transaction will allow Mpower to enhance its competitive position by providing Mpower with greater flexibility in obtaining financing, which will yield benefits for Mpower and allow Mpower to continue operations in the long term. Applicants declare that, in July **2002**, Mpower completed a financial recapitalization that retired approximately \$600 million in long-term debt and preferred stock. **As** of January **3**, 2003, Mpower's remaining \$50 million in long-term debt was also retired. Applicants assert that, coupled with the proposed transaction described herein, the resulting new cash, reduced operational cost structure and new financing are expected to significantly improve Mpower's long-term viability.

Applicants state that the proposed transaction is not detrimental to the public interest because customers currently being served by Mpower will be served by LDMI after the proposed transfer of assets. Because affected customers will be served by LDMI, Applicants state that the proposed transaction will not result in a decrease in currently available services or an increase in rates charged to customers. Furthermore, Applicants assert that grant of the proposed transaction will serve the public interest, convenience and necessity by enabling LDMI to strengthen its competitive presence in Michigan and to concentrate its resources and expertise on providing innovative and diversified service offerings in Detroit.
